

PLANNING PROPOSAL 17 – Permit Community Title Subdivision of existing Multiple Occupancies

Simplified Version

What is proposed?

Multiple Occupancies (also known as Rural Landsharing Communities and MO's) involve the construction of multiple dwellings on a single parcel of land within the rural areas of the Shire. There are in the order of 31 approved MO's in the Shire, with permission to construct around 200 dwellings on those various land parcels.

Planning controls do not currently permit individual dwellings on those MO's to be subdivided off. They must all remain on the one property.

This planning proposal aims to permit individual dwellings or approved dwelling sites in an existing MO to be subdivided off using "Community Title" legislation. Community Title subdivision is similar to Strata Plan legislation, where property owners own an individual lot, but are also responsible for the collective management of common property, with affairs relating to the common property governed by a designated body.

Why are we doing it?

The planning proposal responds to concerns that have been expressed to Council that people cannot secure finance to build on, or buy into, an MO development because lending institutions view the lack of title to the dwelling (which is imparted by it being on its own lot rather than on a communally owned lot) as a lending risk.

From the perspective of Council, permitting subdivision of existing MO's will also provide the opportunity for Council to levy rates for each dwelling on the MO that is subdivided. At the moment, the rating system does not permit Council to levy one set of rates for each dwelling upon a parcel of land. The rate is levied based upon the unimproved value of the land parcel meaning that an owner of similar land next door to an MO, with only one dwelling on it, will pay essentially the same basic rate as the MO with 10 dwellings on it.

This will effectively allow Council to fund infrastructure works through the creation of additional rateable assessments, with no actual increase in development potential.

The endorsed Bellinghen Shire Local Housing Strategy 2020-2040 also foreshadowed this Planning Proposal via *Action 8.3 – Community Title Subdivision of existing Multiple Occupancies (MO's)*.
