Council issues these diagrams in its role as the local sewerage authority. A sewer diagram may show to location of the property's external service lines and the location of Council's sewer mains. For properties that are not connected to Council's sevinfrastructure, a letter will be issued indicating that it may be serviced by an on-site sewage management system. Planning Certificates – Under the Conveyancing (Sale of Land) Regulation 2017 a Planning Certificate is required to be attached to a contract sale. A Planning Certificate provides information on the key planning policies that affect how a particular property can be used, and some of constraints that might need to be considered. The detail which must be included in a Planning Certificate (2) is specified by Schedule 4 of the Environmental Planning and Assessment Regulation 2000, and this includes matters such as the zoning of the land, permissible and prohibit uses, the planning instruments that apply on that land, and whether it is prone to bushfire or affected by flooding controls. The Planning Certificate (5) is obtainable at an extra cost, however cannot be obtained independently of a Planning Certificate (2). It provides extra information that Courconsiders may be of value to potential purchasers. Obtaining a Planning Certificate (5) is particularly important when purchasing a rural property and the prop
