# 1.0 INTRODUCTION

## 1.1 Overview

Councils are required to prepare a ten-year resourcing strategy to identify the resources it needs to implement the community strategic plan. An essential element of the resourcing strategy is that it includes provisions for long term financial planning. The Long Term Financial Plan incorporates the principles and strategies contained within Council's Workforce Strategy and Asset Management Planning. The Long Term Financial Plan is for a period of ten years.

Bellingen Shire has a rich and diverse community with a focus on quality of lifestyle. To ensure that our community's ideals and values of a healthy, safe, and sustainable Shire continue into the future, Bellingen Shire Council (BSC) developed its Bellingen Community Vision. To support the Community Vision, Council has developed a Long-Term Financial Plan that enables the vision to be translated into reality.

With an annual operating budget of over \$39M for 2023/24, Bellingen Shire Council delivers a wide range of services to a population of over 13,000 residents and to thousands of visitors coming to experience Bellingen's unique natural environment.

Like many councils, Bellingen has faced many challenges over recent years, both from within the Shire and from the wider environment. Rate peg increases set by the NSW Government have often fallen short of inflation over the years, meaning that costs are increasing at a higher rate than revenues. This has meant that councils across the State have been significantly disadvantaged by rate pegging with the effect that councils have, for an extended period, spent less than is required on asset maintenance and renewals. Many services that were handled by the State or Commonwealth Government have been moved to Local Government without an appropriate funding adjustment, a process known as 'cost shifting'. Increased government reporting requirements, such as asset reporting, have also impacted on costs. From within the Shire, the demand for improved service levels and new services has also increased costs.

All these impacts have left councils with fewer funds to invest in essential services such as infrastructure maintenance and renewal.

## 1.2 What is a Long Term Financial Plan?

A long term financial plan can be best described as a financial decision making and problem solving tool. It is the point at which long term community aspirations are tested against financial realities. It consists of modelling expenditure and revenue projections, based on a number of market based and internal assumptions. The Long Term Financial Plan is a necessary component of Council's resourcing strategy, it includes the financial modelling of actions and strategies contained within Council's asset management planning and workforce plan.

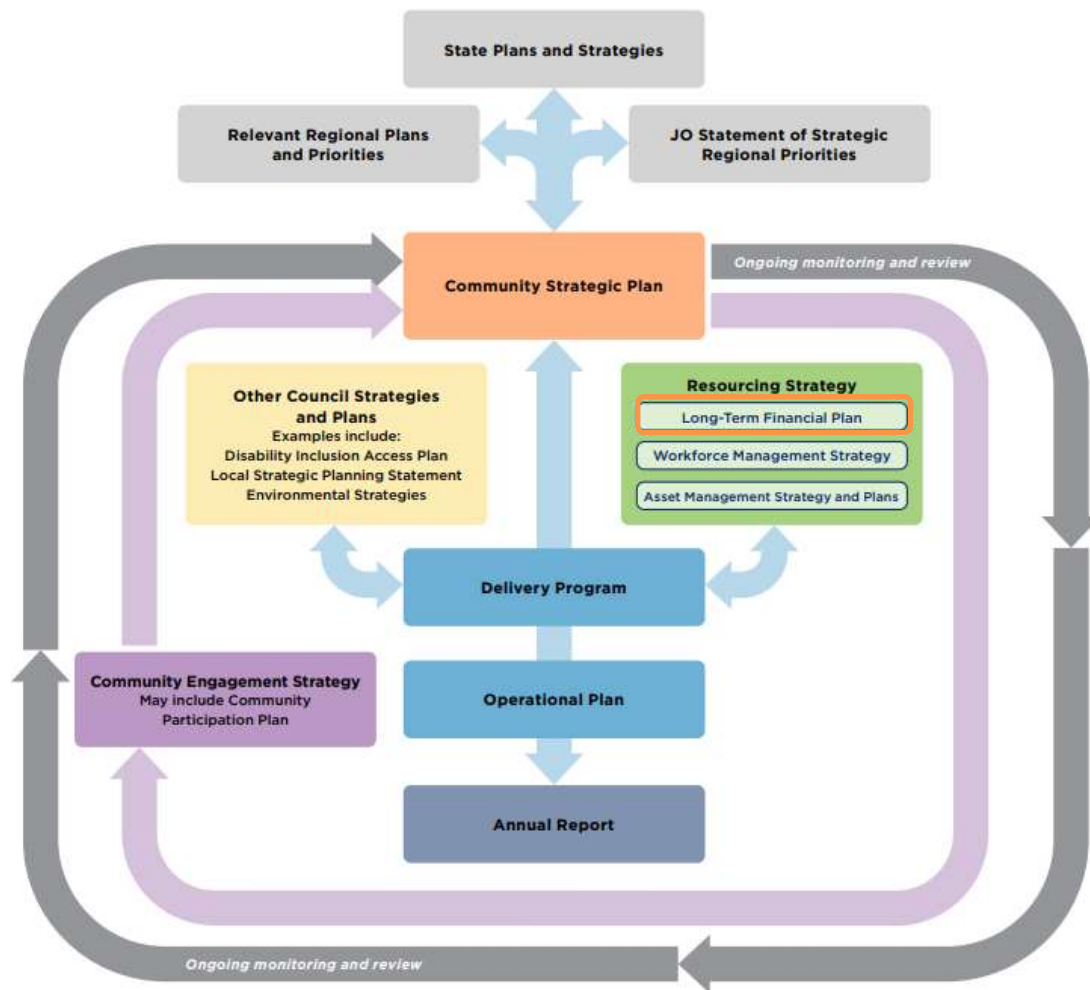

### 1.3 What is the Purpose of this Long Term Financial Plan?

The primary purpose of this Long Term Financial Plan is to facilitate effective financial decision-making which is informed by the short, medium and long term expectations of the community. This Long Term Financial Plan seeks to answer the following questions:

- Can we survive the financial pressures of the future?
- What are the opportunities for future income and economic growth?
- Can we afford what the community wants?
- How can we go about achieving these outcomes?

The Plan will be an effective tool in modelling the financial impacts of significant growth within the Bellingen Local Government Area. It will identify the additional resources (people, time and finances) required to plan for growth whilst continuing to deliver the services and standard of service our community expects. The Long Term Financial Plan will be updated annually in line with the statutory Delivery Program and Operational Plan adoption process. Upon adoption of a new Community Strategic Plan every 4 years, a detailed review of the Long Term Financial Plan will be undertaken to ensure it still represents the key directives and service priorities identified in the Community Strategic Plan.

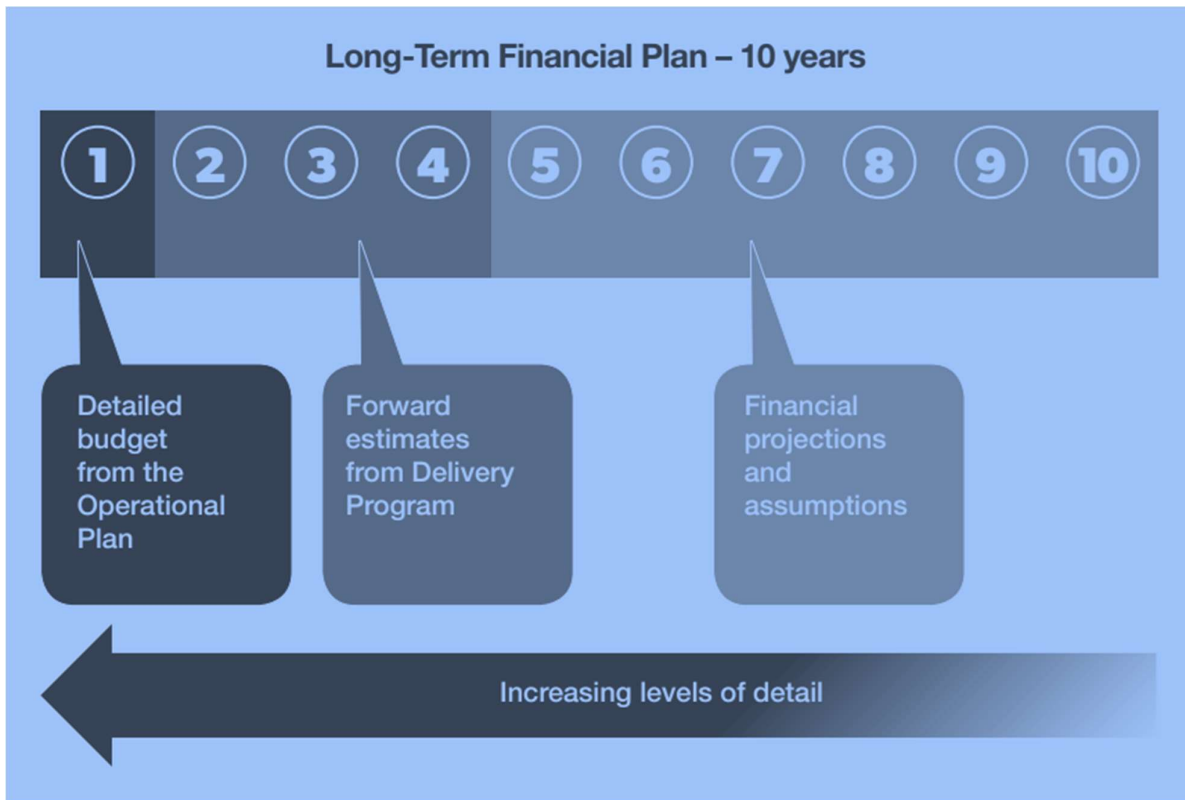

## 1.4 Legislative Requirements

Changes introduced by the NSW Office of Local Government was the introduction of the Integrated Planning and Reporting (IP&R) Framework. The IP&R Framework recognises that councils plans, and policies need to connect to achieve the community's needs and aspirations.

As part of the framework, Council is required to prepare a Resourcing Plan which outlines how Council will achieve the aspirations developed from community feedback in the Community Strategic Plan and Bellingen Shire Community Vision.

Council's Long Term Financial Plan (LTFP) provides a framework to assess its revenue building capacity to meet the activities and level of services outlined in its Community Vision.

The LTFP is required to be produced annually with a detailed review every four years and cover a minimum period of 10 years.

In preparing the LTFP, BSC seeks to:

- Establish greater transparency and accountability of Council to the Community;
- Provide an opportunity for early identification of financial issues and any likely impacts in the longer term;
- Provide a mechanism to:
  - Solve financial problems as a whole
  - See how various plans fit together
  - Understand the impact of some decisions on other plans or strategies;
- Provide a means of measuring Council's success in implementing strategies; and
- Confirm that Council can remain financially sustainable in the longer term.

**The LTFP must include:**

- Planning assumptions
- Projected income and expenditure
- Projected balance sheet and cashflow statements
- Performance monitoring methods
- Sensitivity analysis

# 2.0 LONG TERM FINANCIAL SUSTAINABILITY

## 2.1 How do we define Long Term Financial Sustainability?

A financially sustainable Council is one that has the ability to fund ongoing service delivery and the renewal and replacement of assets without incurring excessive debt or rate increases. This definition has been translated into four key financial sustainability principles:

- Council must achieve a fully funded operating position reflecting that Council collects enough revenue to fund operational expenditure, repayment of debt and depreciation,
- Council must maintain sufficient cash reserves to ensure that it can meet its short-term working capital requirements,
- Council must have a fully funded capital program, where the source of funding is identified and secured for both capital renewal and new capital works,
- Council must maintain its asset base, by renewing ageing infrastructure and by ensuring cash reserves are set asides for those works which are yet to be identified.

Funding the life cycle of assets is a major issue for all levels of Government. The Percy Allan Report (released 2006) identified that NSW Councils had an infrastructure renewal backlog of \$6.3 billion and an annual renewal gap of \$500 million. The backlog in asset renewal is a direct result of Councils in NSW not being able to cash fund depreciation. This means that as assets are consumed, funds are not being put aside to replace the asset at the end of its useful life. This is not a result of poor management; Councils simply cannot afford to fund depreciation without compromising existing levels of service. This has been further exacerbated by the challenging economic conditions currently being faced by businesses community wide and the Rate Peg being set lower than the prevailing real inflation being experienced by Council's.

## 2.2 How is Long Term Financial Sustainability Measured?

Sustainability Benchmarks Council's financial sustainability can be measured by numerous benchmarks and a number of years, New South Wales Local Government Sustainability Benchmarks were established which enable consistent reporting across the sector. These indicators are used as financial health check to monitor the operational liquidity (short term focus), fiscal responsibility (elected term focus) and financial sustainability (long term/intergenerational focus) of the Council. These ratios (detailed in the following table) are monitored by Council to ensure its long term financial sustainability.

Key Financial Indicator	Council Target
Operating Performance Ratio (Greater than or equal to break even over a three year period)	>= 0
Own Source Revenue (Greater than 60% average over three years)	>60%
Building and Infrastructure Backlog Ratio (Greater than 100% average over three years)	>100%
Asset Maintenance Ratio (Greater than 100% average over three years)	100%
Debt Service Cover Ratio (Greater than 1.5 at all times)	>1.5

## 3.0 COUNCILS CURRENT FINANCIAL POSITION

Council has seen an improvement in the operating result over recent years due to several initiatives that it has undertaken including in more recent years those commitments in its Fit for the Future (FFF) submissions. Council's overall operating result has improved from a deficit of \$9M in 2014 to a surplus of \$2.66M in 2022, a net improvement of \$11.66M.

### 3.1 The financial position of BSC as at 30 June 2022

The current financial position of BSC is represented in the table below:

*Table 3.1 Financial summary as at 30 June 2022 (Source: BSC Financial Statements 21/22)*

<b>INCOME STATEMENT</b>	<b>\$'000</b>
<b>Total Income from Continuing Operations (including capital)</b>	56,275
<b>Total Expenditure from Continuing Operations</b>	45,058
Net Operating Result for the year (including capital)	<b>11,217</b>
Net Operating Result Excluding Capital Revenue	<b>2,661</b>
<b>BALANCE SHEET</b>	<b>\$'000</b>
<b>Total Current Assets</b>	53,280
<b>Total Non-Current Assets</b>	501,154
<b>Total Current Liabilities</b>	16,977
<b>Total Non-Current Liabilities</b>	14,001
<b>Total Equity</b>	<b>523,456</b>
<b>CASH FLOW STATEMENT</b>	<b>\$'000</b>
<b>Net Cash Provided - Operating Activities</b>	23,919
<b>Net Cash Used - Investing Activities</b>	-30,252
<b>Net Cash Provided - Financing Activities</b>	2,785
Net decrease in Cash	<b>-3,575</b>
<b>Cash - Beginning of Year</b>	5,557
Cash End of Year	<b>1,982</b>
<b>Investments on Hand - End of Year</b>	39,589
<b>Total Cash, Cash Equivalents &amp; Investments</b>	<b>41,571</b>

### 3.2 Sources of Income and Expenditure

The current components of income and expenditure are represented in the charts below:

Table 3.2 Graph of Income and Expenditure as at 30 June 2022 (Source: BSC Financial Statements

### 3.3 Performance Measures as at 30 June 2022

The following indicators are applicable to Council as at 30 June 2022:

Table 2.3 Key Financial Indicators as at 30 June 2022 (Source: BSC Financial Statements 21/22)

Key Financial Indicator as at 30 June 2022	Result	Council Target
Operating Performance Ratio	10%	>= 0
Own Source Revenue	48%	>60%
Building and Infrastructure Backlog Ratio	157%	>100%
Asset Maintenance Ratio	84%	100%
Debt Service Cover Ratio	6.27	>1.5

### 3.4 Infrastructure and Assets

As a local government organisation, Bellingen Shire Council is charged with the responsibility for the delivery of a diverse range of services. Bellingen Shire Council manages a diverse portfolio of infrastructure assets valued at over \$0.5 Billion (as at 30 June 2022). A snapshot of our infrastructure asset base includes:

# 4.0 KEY ASSUMPTIONS

## Impact of Disasters and Flood Events

Disaster, bushfire and flood events have introduced an element of uncertainty into the annual planning and budgeting processes. Specifically, Councils infrastructure has been impacted by floods, bushfires and drought over the past few years. Accordingly, the documents being presented to Council and subsequently to the community, represent the organisation's best efforts in defining what activities and programs Council can progress, and the Council response to the evolving situation within the resources available.

## Key Planning Assumptions

Some of the key variables reviewed as part of the setup of the LTFP include:

- Consumer Price Index (CPI)
- Salaries and Employee Costs
- Investment Income
- Rate Peg
- Water and Sewer Rates
- Waste Charges
- Other Fees and Charges
- Service Levels - Refer to Bellinghen Shire Council Community Vision.
- Population Growth - The LTFP has been prepared on the assumption of a small increase in the population base of 0.38%. This has been reflected in the rate forecasts throughout the LTFP.
- Economic Growth - The LTFP has been prepared on the assumption of a constant economic growth rate (status quo).

*Table 4.1: Summary of Key Planning Assumptions*

Key Assumptions										
	23/24	24/25	25/26	26/27	27/28	28/29	29/30	30/31	31/32	32/33
<b>Rates income</b>

# 5.0 REVENUE FORECASTS

To ensure Council's long term financial sustainability, it is essential that Council increase its revenue. This is however constrained due to:

- The NSW State Government impost of rate pegging which limits the amount that rates can increase annually - Council's costs continue to exceed the rate peg due to the cost of providing services increasing at rates higher than that of rate peg (wages etc.)
- High percentage of non-rateable land - There is 57% of the Council area which is unrateable, meaning Council can only collect rates on 43% of the Shire. Of this 57%, 32.4% is National Parks, 21.4% is State Forests, 0.9% is Crown Land and 2.4% other non-rateable land.
- Many statutory fees are set by NSW State Government, often not covering the true cost of providing the service that the fee is intended to recover;
- Little opportunity to generate alternative sources of significant revenue. This is due to the fact that the Council must be risk-averse so that any risks of losing public money due to a proposed business venture is minimised.
- Large percentage of pensioners - The Bellingen Shire also has a high proportion of pensioner and concession holders, with 24% of rateable customers receiving a rebate costing Council over \$240K per year. NSW is the only state that requires councils to contribute to the pensioner concession, with 55% paid by the State and 45% covered by the local government authority. For Bellingen this would be equivalent to a 3% special rate increase.
- Low SEIFA ranking – The index of relative socio-economic disadvantage (SEIFA) highlights the Shire as being ranked in the bottom 50% of the most disadvantaged LGAs in the State. The Shire sits at 966 on the index scale. Two of the three distinct localities of the Shire, individually, register even lower on the index scale, highlighting an increased level of disadvantage (Urunga at 935 and Dorrigo at 920). This ranking means Council must be considerate of the community's capacity to pay in terms of generating further revenue from rates and annual charges.

The LTFP revenue projections over the 10 years of the plan have been based on current knowledge of revenue indices, Australian and NSW Government funding indications, historical trend analysis and consultation with key stakeholders.

To be financially sustainable into the future, Council has attempted to balance its need to maximise its revenue with the Community Vision's principles of fairness and equity. Considering this, BSC has performed a significant review of its Fees and Charges Policy. Fees and Charges were reassessed having regard to best practice principles and taking into consideration:

- Economic cost of providing the service
- Type of community service
- Regulated charges
- User pays principal
- Market forces

## 5.1 Rates and Annual Charges

### Rate Peg

In NSW, increases in general rates are limited by the Independent Pricing and Regulatory Tribunal (IPART) in a practice known as rate pegging. IPART sets the maximum percentage that councils may increase general rates by each year. It is important to note that this limit does not apply to an individual's rate levy but rather the total rate levies raised from ordinary and special rates. The rate peg does not apply to stormwater, waste collection or water and sewerage charges. To seek an increase in rates higher than the rate peg, councils are required to apply to IPART for a Special Rate Variation (SRV).

The rate pegging percentage of 4.5% was determined by IPART and is the maximum general increase in income Council can collect for 2023/2024.

### Rates and Charges Income

Income from rates and annual charges form over a third of Council's revenue. The budget attachments assume a rate peg of 4.5% for 2023/24, plus a once off permanent SRV of 3.5% in 2023/24 (total of 8.0%). Income generation from rating is then assumed to increase for another year of 8%, followed by two years of 6% SRV's inclusive of rate peg, returning to the annual rate peg limit from 2027/28 onwards. See table 5.1.

### Special Rate Variation

Council continued to address its infrastructure priorities by successfully applying for a 6% SRV in 2017/18 and a further 6% SRV for years 2018/19, 2019/20 and 2020/21 (2020/21 SRV delayed to 2021/22). The additional income generated has allowed Council to attend to urgent road resurfacing works that has been both assessed and prioritised. This also allowed a greater focus on the strategic management of its infrastructure while putting steps in place to ensure that any renewal requirements are addressed.

Council has applied for the following Special Rate Variation, applicable from the 2023/24 financial year:

*Table 5.1: Summary of Annual Rate Increases*

<b>Annual Rate Increase (%)</b>	<b>2023/24</b>	<b>2024/25</b>	<b>2025/26</b>	<b>2026/27</b>
Rate Peg (estimate)	4.5%	2.5%	2.5%	2.5%
Special Rate Variation	3.5%	5.5%	3.5%	3.5%
Total Annual Increase	<b>8.0%</b>	<b>8.0%</b>	<b>6.0%</b>	<b>6.0%</b>

**Cumulative increase 31%**

Further details can be found in the modelling of scenario 1 further in this document.

### Water and Sewerage Charges

The NSW Best-Practice Management of Water Supply and Sewerage Framework requires Council to prepare and implement a sound 30 year strategic business plan and financial plan in accordance with the NSW Water and Sewerage Strategic Business Planning Guidelines.

Best Practice requires the plans to be reviewed every five years and provides guidance for the future management of Council's water and sewerage business. The forecasts provided in Bellingen's detailed Long Term Financial plan will continue to meet the best practice principles.

### For Residential Properties

For water, a two-part tariff, being a connection charge and a usage charge, will be applied. Usage charges are based on quarterly meter readings and applied at a per kilolitre rate (refer to Council's Revenue Policy for further information).

For sewerage, a uniform charge will be applied to all residential customers in accordance with the Department of the Environment and Energy, Water and Sewer Best Practice pricing guidelines.

### For Non-Residential Properties

For water, a two-part tariff, being a connection charge and a usage charge, will be applied. For rating purposes, non-residential properties include multiple occupancies, such as non-strata flats and units, and those properties which are categorised as 'Business'.

For sewerage the connection charge is determined by multiplying the access charge applicable to the water service connection size by the sewerage discharge factor (SDF). The usage charge is determined by multiplying the number of kilolitres of water consumed by the SDF and then by \$1.45.

Council issues usage charges every three months in arrears, which is included on the quarterly instalment notice.

The SDF is a customer's estimated volume discharged into the sewerage system based on the customer's total water consumption. For non-residential properties, the SDF varies based on the usage requirements of a customer's enterprise.

### Waste Management Charges

The NSW Local Government Act 1993 requires that Domestic Waste Management Charges must reflect the actual cost of providing those services. The service is provided to the residents of Bellingen, Dorrigo, Urunga, Mylestom and specific rural areas. The service includes a fortnightly general waste collection, a fortnightly recycling collection and a weekly organics waste service.

The Domestic Waste Strategy is supported by a 10-year financial strategy, as part of the LTFP, which determines the annual charge. The forecast increase in the charges has been set in accordance with the strategy requiring a 5% increase to the kerb side domestic waste service.

## 5.2 User Fees and Charges

Council annually establishes and regulates its fees and charges in accordance with the provisions of the NSW Local Government Act 1993. Statutory fees are fixed by regulation, legislation, or a State/Federal Authority. As such, Council has no influence on how the statutory fee amount is determined nor do such statutory fees tend to increase by CPI or reflect the true cost of providing the service.

A review of the remaining Council fees and charges was undertaken during the year using best value principles of value for money, a consideration for community expectations and values, and a balance between affordability and accessibility of services. As part of the process, BSC undertook training and workshops for managers and responsible officers in effective pricing, benchmarked its fees and charges with other councils and service providers, and improved the format of the fees and charges.

## 5.3 Interest Revenue and Investments

It is estimated that the average cash and investments held throughout the 10-year plan will be \$26M. Balancing the need to preserve funds and ensure liquidity, with the requirement to maximise returns, is an important aspect of managing Council's investments. Considering this, the Investment Policy (the policy) was reviewed during the year to provide a stronger framework and guidance on which to base investment decisions. The Policy reflects current legislative requirements including the Minister for Local Government Investment Order and the Basel III banking liquidity reforms instituted by the Australian Prudential Regulation Authority.

The budgeted interest rate is determined by a weighted average interest rate based on the 90-day bank bill plus a margin based on the type of investment and duration of investment. The estimated rates used for forecasting purposes is 3.75% per annum.

## 5.4 Other Revenues

Most other revenues are generated by:

- Rental income on Council properties;
- Cost reimbursements and other recoveries, such as workers compensation, legal fees, property rebates; and
- Scrap metal sales.

Rental income will vary according to supply and demand, however, forecast fluctuations in supply and demand over a ten-year period, if available, are not considered reliable. Therefore, assuming rents will increase in line with CPI over the long term is considered a reasonable approach. Council's property portfolio is currently being reviewed, which will consider the long-term viability of owning these properties, along with the creation of a sinking fund to facilitate the divestment and investment in the improvement of various building assets.

All other income sources have been increased in line with CPI.

## 5.5 Grants and Contributions – Operating and Capital

### Grants

Given the uncertain nature of grant funding, the LTFP has been prepared with the following grant funding sources included (all assumed to continue over the duration of the LTFP):

- Roads to Recovery Grant;
- Transport For NSW (TFNSW) – Block Grant and Repair Grant;
- Bridge Renewals Grant;
- Financial Assistance Grant (FAGs);
- Library Per Capita Grant;
- Rural Fire Service – Operating and Capital; and
- Heritage Assistance Schemes.

In reviewing grants and contributions, it is considered prudent not to forecast an increase greater than that historically provided to Council, other than CPI, over the period of the plan. It is unlikely that there will be any increase in grants, or provision of new grants, for current services. The exception to this being forecasts for the bridge renewals program, with estimates made for contributions toward renewing bridges throughout the Shire. Any reduction or discontinuance of grants will be offset by a corresponding reduction in expenditure.

For financial years 2023/24 to 2024/25 Council is expecting significant capital grant revenues in excess of \$56M. The largest of these being:

- Fixing Country Bridges/Bridge Renewal Program \$16.9M
- Sewering Coastal Villages \$10.4M
- Regional Roads and Transport Recovery Package \$4.9M
- Remote Roads Upgrade Pilot Program \$4.1M

### Contributions

The Section 7.12 Developer Contribution Plan (S.7.12) aims to generate contributions that will support the maintenance of levels of service for new community infrastructure to the present standard of facilities per head of existing population.

# 6.0 EXPENDITURE FORECASTS

In developing the expenditure forecasts, Council has considered its ongoing commitments in alignment with the objectives of BSC's Community Vision.

## 6.1 Employee Costs

Council's long-term forecast relating to staffing is contained in detail within the Workforce Management Strategy. The Workforce Management Strategy also identifies the human resources BSC requires to continue its strategic direction and deliver services in an efficient and effective manner.

Employee costs cover wages, all leave types, training, superannuation, workers compensation insurance and associated costs. Wage increases can be in three parts – increases under the NSW Local Government (State) Award 2020, grade/step progression under Council's salary structure and market driven increases to attract and retain staff. The budget factors in a 4.50% increase to overall employee costs in 2023/24, followed by 3.50% increase in 2024/25, 3.0% in 2025/26 and 2.50% for the remainder of the LTFP. This is based on the most NSW Local Government (State) Award.

All associated employee costs have also been increased by the above rates with the exception of superannuation. The employer contributions for Superannuation Guarantee Contributions (SGC) are programmed by the Federal Government to increase incrementally, by moving towards 12% superannuation guarantee.

Table 6.1: Employee Cost Increase Assumptions

	2023/24	2024/25	2025/26	2026/27 onward
Employee wage increases	4.50%	3.50%	3.00%	2.50%
Superannuation	11.00%	11.50%	12.00%	12.00%
Workers compensation	8.00%	3.75%	3.75%	3.75%

## 6.2 Borrowings

Council had a total loan balance outstanding of \$16.5 million as at 30 June 2022. Of this, \$4.85 million was borrowed in May 2015 for infrastructure renewals. The loan was funded by a 9.5% Special Rate Variation approved in 2014 with a 3% interest subsidy by the NSW Government under the Local Infrastructure Renewal Scheme.

Council's estimated required borrowings over the next 10 years are summarised in the following table. The table provided below is based on expected discounted borrowings under the proposed TCorp borrowings facility.

*Table 6.2: Summary of new borrowings*

Loan Purpose	Loan Amount	Loan Term
Sewer Infrastructure 2023/2024	\$6,000,000	10 Years
General Fund Infrastructure 2023/24	\$2,100,000	10 Years
Infrastructure Renewal Program 2024/2025	\$2,500,000	10 Years
Infrastructure Renewal Program 2025/2026	\$1,500,000	10 Years
Water Infrastructure 2026/2027	\$4,000,000	10 Years
<b>Total proposed borrowings</b>	<b>\$16,100,000</b>	

## 6.3 Materials and Contracts

Expenditure on materials, contracts and other operating costs have been generally based on CPI forecasts. The exceptions to this are expenditures that are either i) not recurrent every year, ii) have been identified as increasing by an amount different to CPI or iii) a result of increased services or service levels, for example, increased waste contractor fees in excess of CPI each year reflecting known increases in the Office of Environment and Heritage NSW waste levy on waste disposed as landfill.

## 6.4 Depreciation

Depreciation expense has been projected based on useful life estimates in accordance with Council's accounting policies and plans. Budgeted capital works expenditure has been included in the depreciation calculation.

It is considered reasonable to assume that future asset revaluations will have an impact on infrastructure values. The LTFP does include the potential impact of future asset revaluations. No allowance has been made for the impact of the transfer of the old pacific highway in the forecast depreciation figures.

## 6.5 Other Expenses

Generally, other expense budget items have been increased by CPI forecasts or by reviewing historical expenditure trends. Some expenses are sporadic in nature (for example, the conduct of council elections every four years) or tied to grant funding which has not moved by CPI (for example, the Heritage Assistance Scheme Grant).

## 6.6 Asset Management

Infrastructure (assets) expenditure will progressively be mapped against maintenance and renewal programs recommended by respective asset management plans. In accordance with Council's asset management review, asset maintenance has been increased by CPI with a strong focus on asset renewals as opposed to the construction of new assets.

Subject to successful special rate variations and subsequent loan borrowings, assets should be maintained and renewed in accordance with the respective asset management plans and agreed condition intervention levels.

The 10 Year Asset Management Capital Works Program focuses on the renewal of Council's infrastructure and effective management of Council's plant and vehicles. The capital works listing in the annexures are based on a consolidated position (as per the attachment at the end of this document).

**Table 6.4: Capital Expenditure Forecast: Water Fund**

**Table 6.5: Capital Expenditure Forecast: Sewer Fund**

# 7.0 LONG TERM FINANCIAL PLAN SCENARIOS

As part of the planning process, Council modelled two different scenarios in the LTFP. The scenarios tested as part of the modelling process are:

## 7.1 Model 1 – Introduction of Special Rate Variation

'Model 1' is the base model and assumes the introduction of the following SRV's:

2023/24: an additional 3.5% above rate peg (total increase of 8.0%)

2024/25: an additional 5.5% above anticipated rate peg (total increase of 8.0%)

2025/26: an additional 3.5% above anticipated rate peg (total increase of 6.0%)

2026/27: an additional 3.5% above anticipated rate peg (total increase of 6.0%)

2027/28 onwards: The assumption for increases in rate revenue is limited to the rate peg anticipated for each year of 2.5%.

## 7.2 Model 2 – Unsuccessful SRV application

'Model 2' assumes that the SRV application is declined by IPART. The assumption for increases in rate revenue is limited to the rate peg anticipated for each year of 4.5% for 2023/24, and 2.5% for 2024/25 onwards.

# 8.0 PERFORMANCE MEASURES

## 8.1 Operating Result before Capital Revenue

The following shows the Operating results before capital revenue for the General fund over the term of the Long Term Financial Plan for the two scenarios.

General Fund Operating Result (before Capital revenue)	Model 1: Introduction of SRV \$'000	Model 2: Unsuccessful SRV Application \$'000
2023/24	(957)	(1,278)
2024/25	(722)	(1,610)
2025/26	(301)	(1,630)
2026/27	408	(1,565)
2027/28	748	(1,257)
2028/29	1,032	(1,260)
2029/30	1,441	(898)
2030/31	1,762	(874)
2031/32	2,063	(771)
2032/33	2,391	(675)

## 8.2 Operating Performance Ratio

The 'operating performance ratio' measures how well council contained operating expenditure within operating revenue (excluding capital grants and contributions, fair value adjustments, and reversal of revaluation decrements).

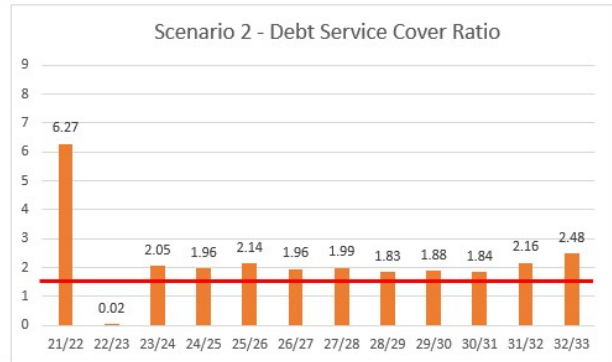

Councils target is greater than or equal to break even over a three year period.

### 8.3 Debt Service Cover Ratio

The 'debt service cover ratio' measures the operating cash to service debt including interest, principal and lease payments.

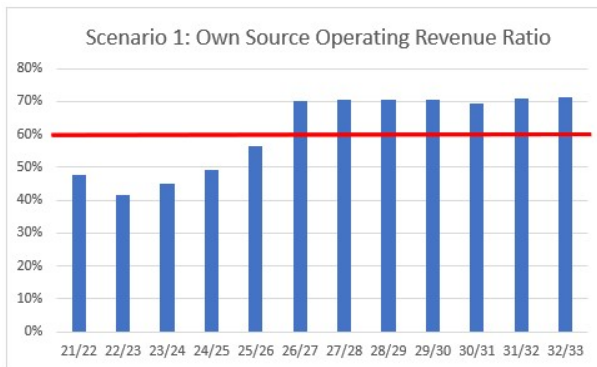

Councils target is greater than 1.5 at all times.

### 8.4 Own Source Operating Revenue

The 'own source operating revenue ratio' measures council's fiscal flexibility and the degree to which it relies on external funding sources such as operating grants and contributions.

Councils target is greater than 60 per cent average over three years.

## 9.0 ADDITIONAL ITEMS THAT DIFFER FROM PREVIOUS LTFP

The following is a list of expenditure and revenue items which differ from the previous LTFP which can provide further context to why the Council is forecasting General Fund deficits for both scenarios until at least 2025/26.

### **Additional costs since the previous Long Term Financial Plan**

Memorial Hall	113,000
Reduction in corporate IT system efficiencies	70,000
Mixed waste disposal	100,000
Changes to employee benefits	80,000
Insurances & electricity	95,000
Software	87,000
Other	5,000
Salary costs due to award changes and retention costs	280,000
Workers compensation insurance increases	164,000
Emergency Service Levy increases	188,000
Change in Councillor remuneration category	48,000
Loan interest additional loan	91,000
Improved plant cost recovery	(350,000)
Efficiency savings	(115,000)
Administration savings	(145,000)
Water and Sewer operational changes	(122,000)
	589,000
Increase/(Decrease)	589,000

### **Additional income since the previous Long Term Financial Plan**

Interest and investment income	80,000
Financial Assistance Grant	460,000
Fees and Charges	135,000
	675,000
Increase/(Decrease)	675,000

### **Net improvement to the operational result since the previous Long Term Financial Plan**

**86,000**

# 10.0 SENSITIVITY ANALYSIS AND FINANCIAL MODELLING

The LTFP is based on several underlying assumptions. Under the IP&R Legislation Council is required to undertake sensitivity analysis on its LTFP assumptions. Sensitivity analysis identifies the impact on Council's financial position effected by changes in these assumptions and highlights the factors most likely to affect the outcomes of the plan.

Sensitivity analysis looks at “what if” scenarios. For example, what happens to Council's financial position if salary and wage increases are 1% higher than forecast, growth is half of that forecast, or investment returns are 1% less than forecast in the plan.

All sensitivity analysis was undertaken utilising ‘Model 1’ and the impacts were assessed by reference to the changes in the cash and investment balance in year 10 (2032/33) of the

LTFP. The major underlying assumptions underpinning the LTFP have been subject to sensitivity analysis which has identified the following impacts.

## 10.1 Employee Costs

Employee costs make up 31% of projected 2023/24 operating expenditure. This is reflective of the service-based nature of a significant proportion of Council activities as well as the construction and maintenance of the considerable infrastructure owned by Council. As it makes up a large proportion of the operating expenditure budget, and movements in rates of pay are determined through industry wide Award negotiations and market forces, the Council is sensitive to unplanned changes in employee costs.

Due to the above factors, an impact of a 1% increase in employee costs each year was modelled. The analysis indicated that the cash and investment balance would be reduced by an estimated \$1.6M over the 10 years ending 2032/33 of the LTFP.

## 10.2 Rates and Annual Charges Revenue

Rates and Annual Charges revenue makes up over 46% of the projected 2023/24 operating revenue. Council cannot set the rate of increase in general rates but can only accept the rate pegging imposed on it without a special variation application. The LTFP includes an SRV of 8.0% in years 2023/24 and 2024/25, and 6% in years 2025/26 and 2026/27 years, returning to rate peg for remainder of plan. If these increases are not achieved, Council will need to adjust expenditure or revenue appropriately.

The LTFP modelling has been devised with scenarios that include the special rate variation, however, progress in addressing the Council asset renewal and maintenance challenges is

contingent on the success of any applications to increase rates through a special variation. The LTFP has been projected on the premise that current rating income collection patterns are maintained. Any financial shocks or changed economic conditions could impact ratepayer capacity to pay and, in so doing, will affect the Council cash flow from rating.

Annual Charges, particularly domestic waste charges, are susceptible to significant cost increases as a result of legislative change in this area of operation (due to Federal and State climate change policies and other regulations).

Due to Council's reliance on rate revenue, an impact of a 1% reduction in rates revenue each year was modelled, assuming that any special variation would also be reduced by 1%. The analysis indicated that the cash and investment balance would be reduced by an estimated \$10M over the 10 years ending 2032/33 of the LTFP.

### 10.3 Inflation

Given the considerable number of assets held, constructed, and maintained by Council, variations in underlying inflation have the potential to have a significant impact on the LTFP. Council has considerable pressure from rising raw material costs including fuel and other construction materials. Any major unplanned hikes in these costs will impact the LTFP.

### 10.4 Investment Returns

Council's current approach is that interest earnings from investments are used to fund the operational budget. This source of revenue, however, is impacted by the various fluctuations of the investment market and is not necessarily a reliable source of revenue. The potential use of interest income as a source of revenue to balance the operational budget may in turn be impacted.

The impact of a reduction in investment interest rates of 1% was modelled. The analysis indicated that the cash and investment balance would be reduced by an estimated \$4M over the 10 years ending 2032/33 of the LTFP.

### 10.5 Grants and Contributions

Council relies heavily on income from the Federal Government Financial Assistance and the Roads to Recovery grant programs. These grants respectively make up 7% and 1% of Council's total revenue in 2023/24.

The Financial Assistance Grant is calculated using a formula that considers the population of the local government areas, road lengths and a number of other demographics. Given the complexity of the formula, it is difficult to calculate any potential impacts to Council if any of the inputs were to change.

Funds provided under the Roads to Recovery Program is not intended to replace council spending on roads but to assist councils in their local road construction or maintenance. The Roads to Recovery Program is scheduled to conclude in 2024. However, due to the heavy reliance of this program throughout NSW, there has been much lobbying for the continuation of this program. The LTFP has been prepared with the assumption that the Roads to Recovery Program will continue indefinitely
